Learning & Living under one roof

2023 PROSPECTUS

Providing English Courses at
Home Overseas for over thirty years

Our unique, family-based approach of learning and living under one roof offers your children a safe, fun and motivating environment in which they can advance their English skills effectively.

► Family

Homestay or residence? We offer the best of both worlds! Since 1987, our family have been welcoming **small numbers of students** to learn English in an **immersive environment**. Alex, Carmen, their children, our teachers and students live and learn together, sharing home-cooked meals, activities, excursions, free time and conversation. Lessons are in the **spacious rooms and garden** of our country house in the **South Downs National Park**, just outside the historic castle town of Arundel and well-connected to London, Brighton, Portsmouth and Chichester...

We build **long-lasting relationships** with our students and their families: nearly all have been with us before or come on direct recommendation!

► Safety

Students are **carefully supervised**. Our low numbers and **home atmosphere** encourage students to tell us if they are unhappy or worried. We work together to help everyone feel comfortable, happy and protected.

► Covid-19

Our **unique** 'bubble' system aims to minimise possibilities of virus transmission and to promote a fun and healthy learning environment. See back for details.

We focus on four core values: Family, Safety, Individuals & Results

► Individuals

No group bookings – individuals only, so students make friends easily. There is a maximum of **only 20 students at the school**, only **8 per class**, and up to 4 share **en-suite rooms** with, whenever possible, students of other nationalities.

Junior, Senior and Intensive courses respond to each student's age, level and goals. Our enrolment process and diagnostic test help us understand each student's **individual needs** before they arrive. During the course, we love to get to know each student really well: what they like, what motivates them, how they learn.

Individual dietary requirements are catered for.

► Results

Low numbers, the family atmosphere, individual bookings and intensive programmes with friends of other nationalities mean students find it easy and natural to follow our strict **English Only** rule: they rapidly gain **communicative confidence**, and **learn non-stop** in and out of class.

Regular student feedback, teachers' meetings and continuous assessment help us to **adapt quickly and effectively** to each student's progress and goals.

A detailed end-of-course report and certificate are provided.

2023 PRICES & DATES

Weeks 1&2: 9th July – 23rd July | Weeks 3&4: 23rd July – 6th August

Junior Course

(ages 12 – 14)
